EXCELLENCE IN SPECIAL PROCESSES

CONNECTING YOUR BUSINESS TO COST SAVINGS, IMPROVED QUALITY AND SUSTAINABLE RESULTS

Conrad/Kacsik is a single source solution for your Special Process needs. Our experts have the requisite experience necessary to guide you through the implementation process, and ensure your success. To guarantee a positive return on investment, our system begins with a comprehensive analysis of your business specific needs. Based upon this analysis, solutions for process improvement, training, and auditing services will be specifically designed for implementation. Conrad/Kacsik will enable your business to achieve fast track cost savings.

flexible solutions for your business needs

LISTENING TO YOUR BUSINESS NEEDS

You know what is best for your business. We are here to listen. Our industry experience, combined with the utilization of lean tools will guide your organization to cost savings. We believe that teaming with our clients and actually becoming part of their business is the only way to ensure projects are successful.

SERVICES WE PROVIDE

The field of Special Processes encompasses a wide range of forums. All of them share one common characteristic: Metallurgical Transformation. We will install a robust process that meets your business needs, or based upon the results of our internal auditing methodology, we will improve your existing process. Implementation of Special Processes is a journey. From conception, to process placement, to training, to NADCAP Audits, and Final Customer Approval, Conrad/Kacsik will be with you every step of the way.

Listed below are Specific Services we provide:

Surface Enhancement (Shot Peen)

Thermal Spray

Aluminide / Pt / Aluminide Diffusion Coatings

Heat Treat

Vacuum Furnace Brazing

Welding

Nonconventional Machining

Furnace Systems

Pyrometry (AMS 2750 Compliance)

NADCAP Approval Process

Training

PROCESS INITIATION

Realizing the actual cost of initiating captive Special Processes can be difficult. Conrad/Kacsik has the experience to advise the market value of each commodity we serve. Conrad/Kacsik will assist you in the Cost Justification, Process Initiation, Training, NADCAP audit(s) and customer approval(s).

PROCESS IMPROVEMENT

Conrad/Kacsik believes strongly in the principle of Continuous Process Improvement. We utilize Lean Tools to implement and achieve Continuous process improvement for our clients. Whether your needs are NADCAP Audit preparation and facilitation, process Initiation, or Process Training, Special Process Consulting will design and implement a strategy based upon the foundation of Continuous Process improvement, Adherence to this philosophy is ingrained in our culture,

COST ANALYSIS AND JUSTIFICATION

Investing in the implementation of a new processes, or process improvement program is a concern for large and small companies alike. Conrad/Kacsik will mitigate the inherent risk. We will assist you with cost analysis and justification. Whether the cost analysis justifies the return on investment or negates the project, Conrad/Kacsik is working toward the best interests of your business.

INTERNAL AUDITING – THE REAL CHECK & BALANCE

Conrad/Kacsik has facilitated over 30 NADCAP / Prime Audits. Based upon this experience, we've realized that the only way to maintain merit and have a stable conforming process is to complete thorough, non-biased internal audits at designated frequencies. We believe consistent internal auditing creates both stability and repeatability in Special Processes, and fosters a culture of excellence.

Conrad/Kacsik offers a non-biased auditing process that will create stability in your process. We audit to both Customer and NADCAP applicable checklists to ensure that areas of concern are discovered, and problems are solved.

A rigorous Internal Auditing Program provides the checks & balances necessary to ensure the successful operation of your business.
